About This Test

The TExES Bilingual Education Supplemental (164) test is designed to assess whether an examinee has the requisite knowledge and skills that an entry-level educator in this field in Texas public schools must possess. The 70 multiple-choice questions are based on the Bilingual Education Supplemental test framework. The test may contain questions that do not count toward the score.

The Test Framework

The Bilingual Education Supplemental test framework is based on the educator standards for this field. The content covered by the test is organized into broad areas of content called **domains**. Each domain covers one or more of the educator standards for this field. Within each domain, the content is further defined by a set of **competencies**. Each competency is composed of two major parts:

- The **competency statement**, which broadly defines what an entry-level educator in this field in Texas public schools should know and be able to do.
- The **descriptive statements**, which describe in greater detail the knowledge and skills eligible for testing.

The educator standards being assessed within each domain are listed on the next page. These are followed by a complete set of the framework's competencies and descriptive statements. Read each competency with its descriptive statements to get a more specific idea of the knowledge you will be required to demonstrate on the test.
